

North West Minerals Province; ~\$500 billion critical mineral resources

CopperString 2032: Critical Minerals and Renewable Energy Corridor

Mount Isa

Townsville

Green Industry and Energy Hub

Hughenden

Green Industrial Superpower; circa 400,000 GWh/yr in 2050

Nature Positive Infrastructure: Unrivalled biodiversity profile to support energy infrastructure development

4.2 GW solar + battery storage

5.2 GW HVDC (VSD) transmission link + battery storage

Barcaldine

Green Industry and Energy Hub

Barcaldine Renewable Energy Zone (BREZ); Green industrial production including hydrogen and urea

Biloela

Gladstone

Interconnection to BREZ and Central West Power System

**KEY**  
— Powerlink transmission grid  
... RAPAD Power Grid HVDC
